Reply to Office Action of May 31, 2005

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 31 May 2005. In the Official Action, the Examiner has found five patentably distinct species, namely, Group I directed to Figures 1-3; Group II directed to Figure 4; Group III directed to Figures 5-6; Group IV directed to Figure 7; and Group V directed to Figures 8-9. The Examiner has required that Applicant chose one species for further prosecution in this case.

By this Response, Applicant elects Group III directed to Figures 5-6 for further prosecution. Applicant further believes that Claims 1, 7 and 8 read on Group III.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
